

eMYAA MARKETING UPDATE

Performance, Campaigns, Channel Activity, and Key Priorities

01 October 2026

Internal Management Update

Executive Summary

LAUNCHED

Google Ads & LinkedIn

New paid channel went live 22 Sep, testing phase. Already 69.7% of website traffic.

PERFORMING

Instagram Remains the Standout

2,116 followers, 2.27M all-time views; Reels drive 89.5% of interactions.

GROWING

LinkedIn Momentum

531 followers, +247 in 30 days (+6,075%); impressions and reactions both up double digits.

IN PROGRESS

Content Pipeline on Track

How-To video and Abdulelah Al Harbi posted; Manal Talal in production for mid-October.

NEEDS ATTENTION

Arabic Underperforming English

Early Google Ads data: English leads on every metric, incl. 97% vs 87% engagement rate.

OPEN ITEM

Deposits Reporting Gap

Gross deposits confirmed by Malek directly (\$12,206); no export file yet restores this as a tracked metric.

Channel Performance: Instagram & LinkedIn

Instagram: Views by Content Type

Instagram: Interactions by Content Type

LinkedIn: Follower Growth (30 Days)

Metric	Value
IG Total Views (all-time)	2,271,132
IG Total Interactions (all-time)	8,311
LinkedIn Impressions, 13-27 Sep	559 (+118%)
LinkedIn Reactions, 13-27 Sep	28 (+155%)

Campaign & Content Tracker

Item	Status	Key Metric	Timing
Mention & Win	Live	26.2K views, 1,129 likes on launch reel	23 Sep to 20 Oct, timed before salary days
Ali Sabeel Video	Completed	1.3M views to date	Completed 18 Sep
How-To Video (human presenter)	Posted	319 views, 28 interactions	Posted, Sep
Abdulelah Al Harbi	Posted	Live on Instagram	Posted, Sep
Manal Talal	In Production	Brief sent, production started	Targeting mid-October
Monthly Content Calendar	Live	Being posted through September	Ongoing

Q3 to Q4 2026 Rollout: One Creator per Month

Jul: Musheera	Aug: Ali Sabeel	Sep: Abdulelah	Oct: Manal Talal	Nov: Hamed Al Bloushi
Posted	Posted	Posted	In Production	Scheduled

Paid Media: Google Ads & LinkedIn

Launched 22 September as a testing phase. Google Search targets Starter and Emerging investors; LinkedIn lead generation targets Affluent investors. \$30,000 campaign, September to December, managed by Ignite (invoice TI7541). Interest targeting covers Saudi Arabia and Riyadh; location is restricted to Saudi Arabia residents only.

Website Traffic by Source, Since Launch

793%
Active Users, Week over Week
Following the Saudi test launch

558
New Users Driven to Site
Since campaign launch

The four traffic sources above account for 579 of 587 tracked sessions (98.6%); the remaining 8 sessions fall outside GA's top-source breakdown.

English Is Outperforming Arabic in Saudi

In testing, the English version of the Google Ads campaign leads the Arabic version on every measured metric.

Metric	English	Arabic
Sessions	212 (54.5%)	176 (45.2%)
Active users	208 (54.3%)	175 (45.7%)
Engaged sessions	206 (57.4%)	153 (42.6%)
Avg. engagement time	19s	16s
Events per session	6.49	5.44
Engagement rate	97.17%	86.93%

This is early data (since 23 Sep) and may reflect ad copy or targeting rather than audience preference. Recommendation: review the Arabic creative and targeting with Ignite before scaling spend.

Key Issues, Risks & Dependencies

Item	Type	Detail
LinkedIn follower count dropped 586 to 531	Unverified metric	No source explains the decrease; needs Ignite or a platform export to resolve
Gross deposits reporting	Data gap	Confirmed by Malek directly (\$12,206) but no spreadsheet export yet restores this as a tracked line
Arabic ad performance	Campaign risk	Trailing English on every metric since 23 Sep; review creative and targeting before scaling spend
Instagram/LinkedIn/X/TikTok exports	Reporting gap	No standing export or update cadence; each refresh this cycle relied on ad hoc screenshots
Ali Sabeel "Completed" status	Inference, not confirmation	Based on no further Ignite invoice since 18 Sep, not a direct close-out confirmation

None of the above represent a confirmed factual error — they are open items requiring a source, a decision, or a follow-up before the next reporting cycle.

Next Steps

Item	Owner / Next Action	Timing
Scale Google Ads & LinkedIn	Marketing, with Ignite; review Arabic creative first	September to December
Manal Talal video	Production in progress	Mid October
Hamed Al Bloushi video	Scheduled, per rollout plan	November
Mention & Win	Continues, GCC-wide	Through 20 October
Fresh KPI export	Requested from Malek, to restore gross deposits reporting	This week
LinkedIn follower discrepancy	Follow up with Ignite for an explanation	Next reporting cycle

The story so far: a new paid channel launched and already drives most of our website traffic, paired with a steady drumbeat of new content. The next phase is to scale what is working, resolve the Arabic underperformance and the open data gaps, and keep shipping one creator a month through year end.

Best Performing Content & Supporting Detail

Content	Views	Format
Musheera Reel	5.3M	Video, presenter-led
Ali Sabeel Reel	1.3M	Video, presenter-led
Mention & Win \$500	186K	Graphic, campaign
Saudi Market Size Infographic	515	Graphic, static

Presenter-led video reels outperform static graphics by orders of magnitude — the basis for continued investment in human-led formats.
