IT Progress Update

IT Status at a Glance

VENDORS, PLATFORM AND INTERNAL SYSTEMS | AS AT 01 OCTOBER 2026

Area	Update	Target / done	Status
iGentech	Invoice overrun resolved: billing cut from USD 10,750 to USD 5,625 (-48%).	Closed	RESOLVED
Shufti Pro, billing	Duplicate KYC charges refunded (USD 9,605), plus a USD 50 production test credit given as compensation.	Closed	RESOLVED
Google Play security update (current app)	Security API update Google requires for the current Android app. Not the Next App. 2 test rounds, 99.4% pass; live on Google Play.	Done 29 Sep (deadline 01 Nov)	DONE
Helpdesk	Deployed ahead of the 20 Sep target. Improvement backlog in the appendix.	Done 17 Sep	DONE
Shufti Pro, KYC demo	Enhanced KYC flow in the Shufti SDK demo app. Internal demo only; it will not go live.	08 Oct 2026	IN PROGRESS
QATestLab	Reviewing the Next App and preparing test cases, ready for v1.	Testing from 08 Oct	IN PROGRESS
Exante, Next App	First version due 08 Oct. Full release plan to be shared next week. Sanity test date to be confirmed.	v1: 08 Oct 2026	IN PROGRESS
WealthTech CRM (Frappe)	One customer base in a single system. Starts now that Helpdesk is live.	29 Oct 2026	PLANNED
Reporting Dashboard	Real-time reporting options under review to support the business case.	TBC	EXPLORING

Next App: Exante and QATestLab

PLATFORM | NEXT APP DELIVERY

Now

Next week

08 Oct 2026

After 08 Oct

QATestLab engaged

Reviewing the Next App and writing test cases while Exante builds it.

Release plan

Full plan shared once QATestLab confirms its estimate.

Next App v1

First version delivered by Exante.

Independent QA

QATestLab tests v1 against the prepared cases. Sanity test date to be confirmed.

WHY IT MATTERS

QATestLab gives an independent quality check before the Next App reaches users. Test cases are written while Exante builds v1, so testing can start as soon as v1 arrives on 08 Oct.

Android App: Google Play Security Update

CURRENT APP | SECURITY COMPLIANCE | NOT THE NEXT APP

Google required a security API update, republished by 01 Nov 2026, to keep the current app on Google Play. We ran two internal test rounds and found no major bugs.

99.4%

pass rate (158 of 159 executed)

Passed 158
Skipped 19
N/A 4
Failed 1

182 cases | 159 executed | 158 passed

Live on Google Play: 29 Sep 2026

More than a month before the deadline.

Module	Passed	Failed	Skipped	N/A
Base requirements	48	1	13	2
AI Chatbot	31	0	0	2
T&C + SCC	12	0	0	0
Other Q1 requirements	42	0	3	0
KYC onboarding	25	0	3	0
Total	158	1	19	4

Round 1 and Round 2 combined.

MINOR ISSUES, NEXT RELEASE

1. Watchlist items disappear when the Shariah filter is on
2. Instrument tree keeps loading on first open of the trade screen
3. Withdrawal: beneficiary shows last name only
4. Change display mode has no effect
5. Arabic summary screen: daily P/L hard to see
6. Exchange section should be hidden (USD base currency only)

None of these block the release.

IT Progress Update: Product Roadmap

The Next Mobile App - **v1 due 08 Oct 2026**

Built by Exante and tested by QATestLab before release. A simpler, easier trading experience.

Guest Access - **Planned 2027**

Users can explore the platform before onboarding, removing KYC as a barrier to first experience.

Market Pulse Feature - **In Discussion**

In-app live market news to drive repeat engagement.

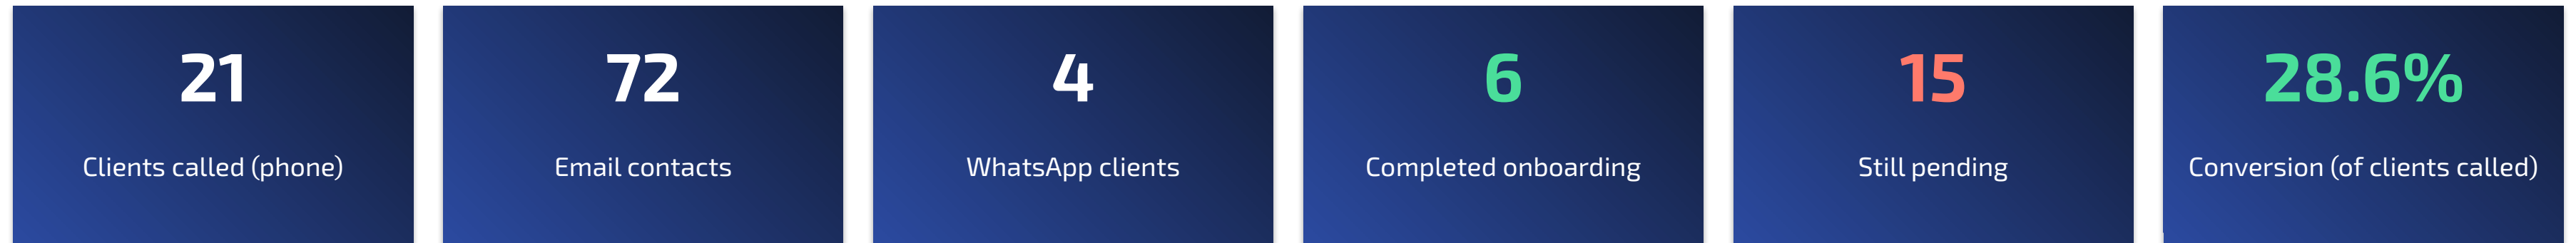

Note: EXANTE verifying data-provider access for white-labels.

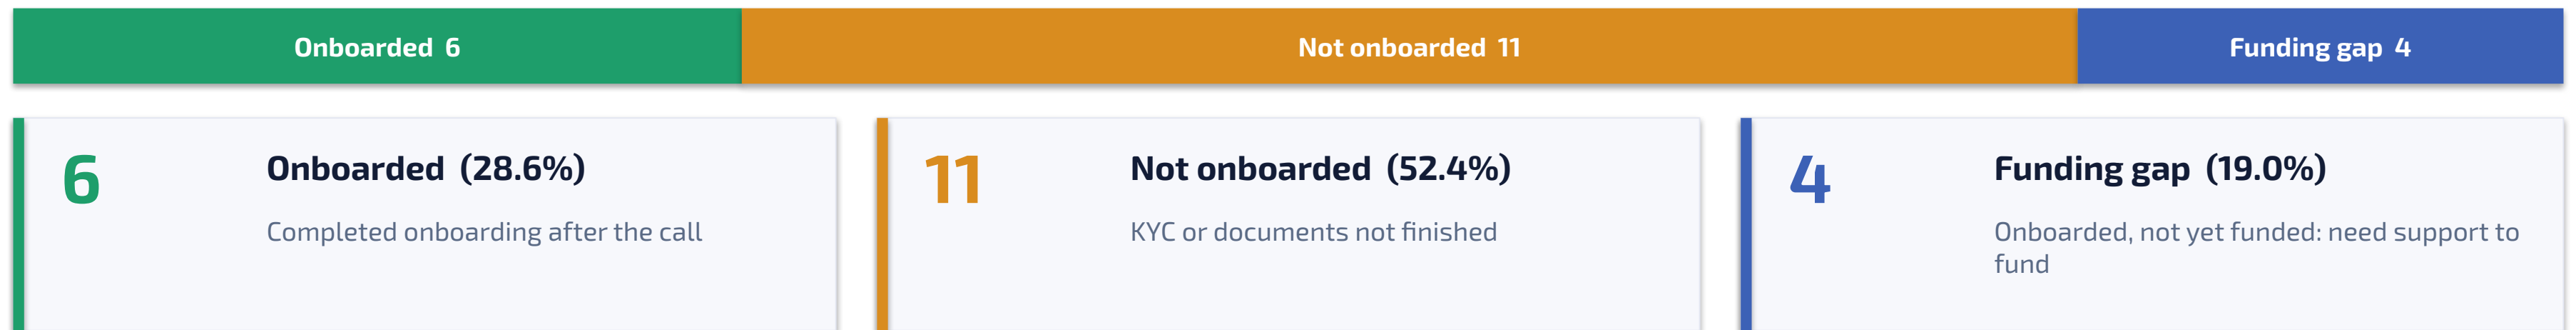

Client Experience Progress Update

Client Experience Overview

SINCE THE LAST CEO UPDATE | 17 SEP TO 1 OCT 2026

CLIENTS CALLED, BY WHERE THEY ARE NOW

SUMMARY

Out of 21 clients called, 6 completed onboarding (28.6%). 15 are still pending: 11 have not finished onboarding and 4 are onboarded but have not funded yet.

Call results in the tracker: 12 reached, 2 no answer, 7 not yet logged. Email (72) and WhatsApp (4) cover clients we could not reach by phone.

Client Feedback and Next Steps

WHAT CLIENTS TOLD US AND WHAT WE DO NEXT

CLIENT FEEDBACK

Missing documents: many clients don't have their KYC documents ready at registration, which causes delays or drop-off.

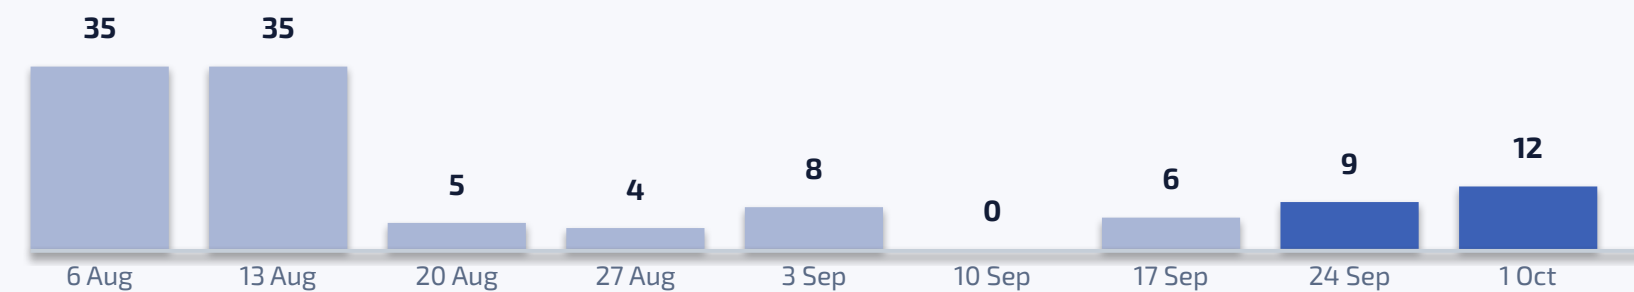

KYC feels too long: verification takes longer than clients expect, and some stop halfway.

Fees: clients asked about our commissions and fees.

Deposits: several clients asked how to deposit by bank transfer.

Funding gap: 4 onboarded clients need support to fund. One asked about fees; two said they will fund soon.

CLIENTS FOLLOWED UP PER WEEK (TRACKER)

Week ending. Dark bars = this update (21). Early August weeks were mostly spam numbers.

PROPOSED NEXT STEPS, BY GROUP

Funding gap (4)

Send the fee schedule and bank transfer steps, then a follow-up call.

Not onboarded (11)

Onboarding email with the document checklist, then a second call on day 3.

Onboarded (6)

Guide the first deposit by bank transfer so the account gets funded.

To make the weekly update faster: log the result of every call (7 of 21 have none yet), and give each open client an owner, a due date and a next follow-up (none set in the last two weeks).

Marketing

Sponsored Ads: What's Live Now

Campaign	Status	Notes
Mention & Win	Live, 23 Sep to 20 Oct	Timed before salary days; 26.3K views, 1,129 likes on launch post
Ali Sabeel Video	Completed 18 Sep	GCC-wide targeting, 3-week run completed, no further spend invoiced

What is Actioned & In Progress

Campaign	Status	Notes
Monthly Calendar	Completed	New How To video with a human presenter posted
Abdulelah Al Harbi	Completed	Video live on Instagram
Manal Talal	Scheduled for 22 October	Brief sent, video production started

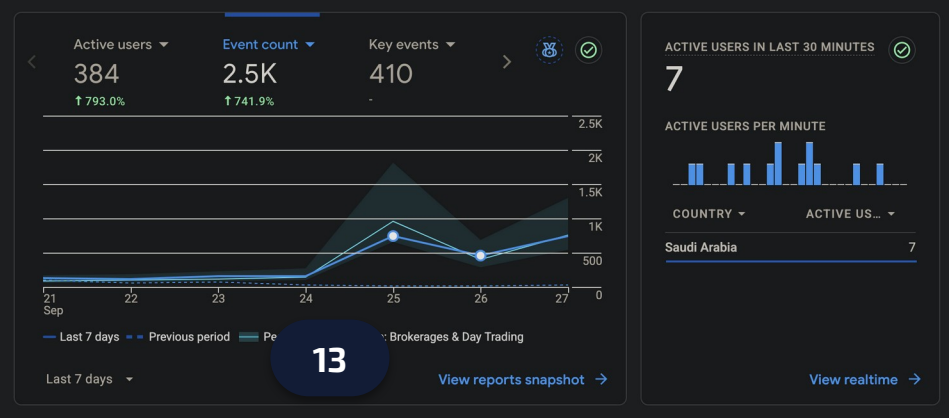

NEW CHANNEL: GOOGLE ADS & LINKEDIN

Testing since 22 Sep. Google Search (Starter/Emerging) + LinkedIn lead gen (Affluent). Interest targeting: Saudi Arabia and Riyadh; location restricted to Saudi Arabia residents only. \$30,000 campaign, Sep to Dec (Ignite, TI7541).

In testing, English is outperforming Arabic: 212 vs 176 sessions, 97% vs 87% engagement rate.

Google Analytics: website traffic, 21 to 27 Sep 2026

Items logged

3

Completed

1

In progress

3

New

Improvement	Priority	Status
Standalone desktop app for Client Experience	Low	DONE
Auto-acknowledgement email with ticket ID	Medium	DONE
Notify Client Experience of new tickets	Medium	DONE
Pause SLA timers on weekends	Low	IN PROGRESS
Knowledge base linked to the eMYAA support page	Low	NEW
Create a ticket when a chatbot user picks "Contact a Human"	Low	NEW
CRM link: create Helpdesk accounts for new users automatically	Low	NEW

The weekend SLA pause is being built after an SLA breach on a client query raised on a Thursday.

Exante - Status Update

- **Corporate Client Onboarding**

Aligned with the Exante team on the end-to-end process for onboarding corporate clients.

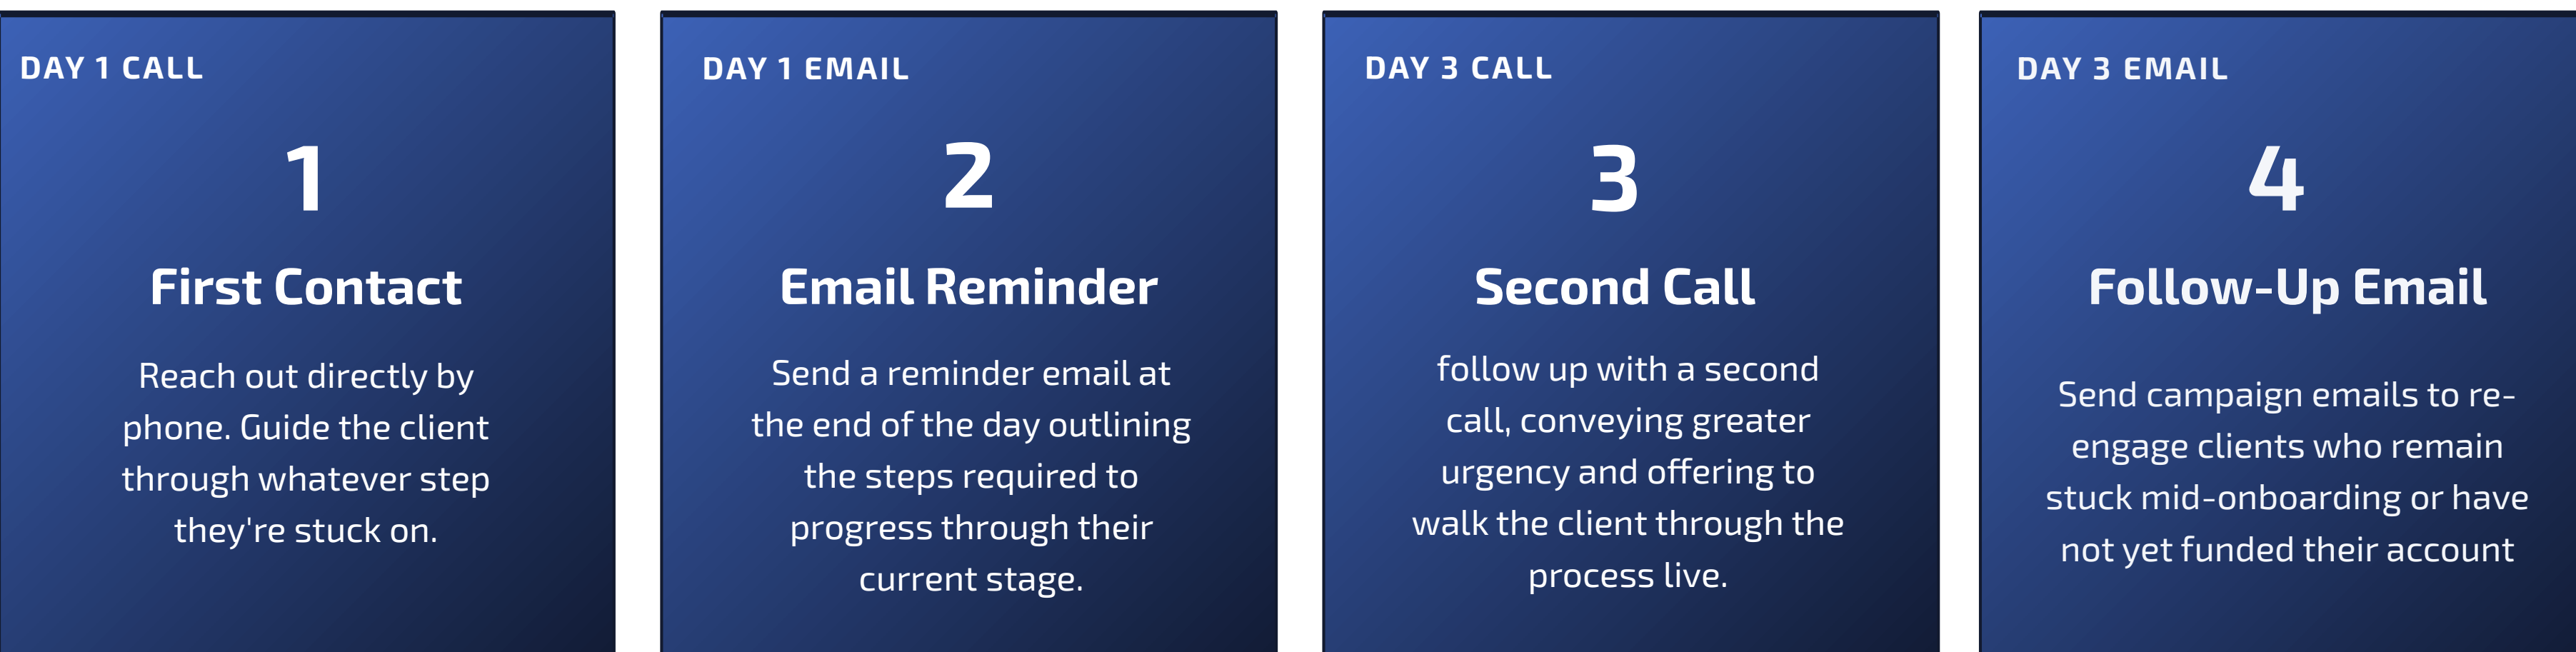

- **New Application Release**

First version of the Next App due 08 Oct 2026. Full release plan to be shared next week.

- **Sanity / Smoke Tests**

The Android security update passed two internal test rounds (99.4%) and went live on Google Play on 29 Sep. Sanity test date for Next App v1: to be confirmed.

Client Interaction Journey

Contact Channels

- ▼ Phone Calls: direct phone outreach for onboarding guidance and follow-ups
- ▼ Emails: reminders, document lists, and campaign follow-ups
- ▼ Business WhatsApp (In Progress): planned addition to reach clients faster and more directly

Website Analytics

587

Visits

542

Active Users

558

Traffic Sources

Source	Visits	Notes
Paid (Google Ads)	409 (69.7%)	google / cpc, campaign live since 22 Sep, already the top traffic source
Direct	92 (15.7%)	No campaign or referral tag - typed URL, bookmark, or app share
Search	39 (6.6%)	Organic Google search
Referral	32 (5.5%)	ajyadcapital.com, Instagram, Facebook, Google Tag Assistant (7 test visits)

The four sources above account for 572 of the site's 587 sessions (97.4%); the other 15 are ChatGPT (9) and source not available (6). GA4 export, 1-28 Sep.

Metric	Value	Notes
Followers	2,116	-
Views (all-time)	2,271,132	59.2% Reels / 38.1% Stories
<i>Interactions (all-time)</i>	8,311	72.4% from Reels

Top Performing Content

Content	Result
Musheera Reel	5.3M views
Ali Sabeel Reel	1.3M views
<i>Mention & Win \$500</i>	186K views
<i>Saudi Market Size Infographic</i>	515 views

X, LinkedIn & TikTok

Platform	Metrics	Notes
X	738 followers, 99 posts	Audience quality is real: 96.4% Bahrain, 3.6% Saudi, however still Instagram is heavily outperforming X.
LinkedIn	531 followers	247 new followers in 30 days (vs 4 before, +6,075%); 13-27 Sep: 559 impressions (+118%), 28 reactions (+155%)
<i>Tiktok</i>	15 followers, 176 total likes	Lowest interactions between all platform/ audience not suitable for eMYAA
