DECISION

20 Oct

go or hold on paid media

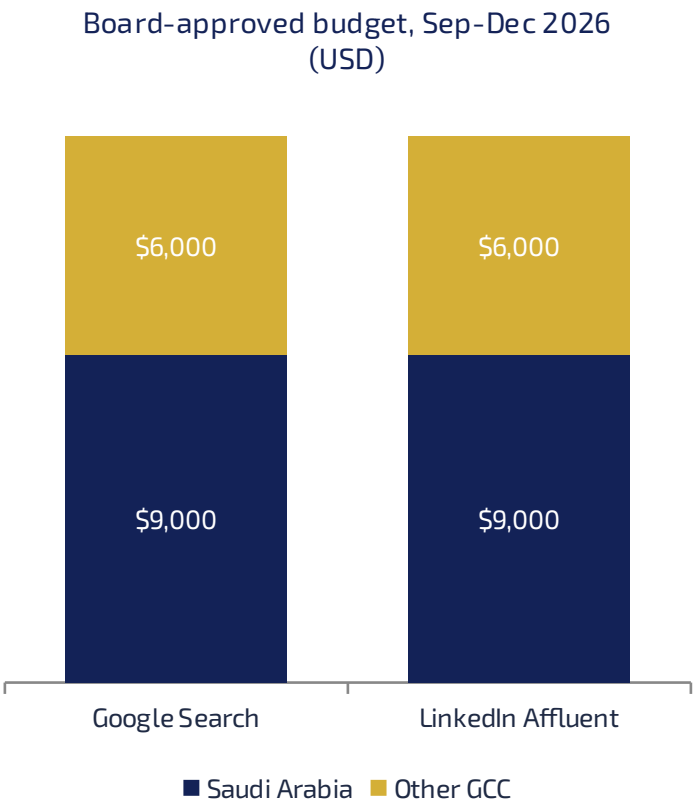

Judged on cost per account vs Board targets (\$167 / \$417 / \$882).

Takeaway Paid media works at the top of the funnel. Decide on 20 October, judged on accounts opened.

Paid media is in testing against Board CAC targets; only Google Ads has results so far

	Google Ads	LinkedIn Ads
Audience	Starter (under \$1K) and Emerging (\$1K-5K)	Affluent (\$5K-50K)
Objective	Website conversions	Leads, then in-person meeting
Markets	Saudi Arabia first; Qatar, UAE, Kuwait, Bahrain, Oman in plan	
Phase	Testing since 22 September; scale phase follows (Board runway)	
Target CAC	\$167 Starter \$417 Emerging	\$882 Affluent
Evidence	409 sessions, 400 key events (GA4, 1-28 Sep)	None yet; lead forms stay on LinkedIn
Next read-out	20 Oct: spend, cost per key event, accounts	20 Oct: leads, cost per lead, meetings

Takeaway Plan and targets are set. Ignite must supply spend and conversion data before 20 October.

Google Ads brought 70% of September sessions; Arabic ads log more key events per session

587 sessions, 1-28 Sep

542 active users, 1-28 Sep

558 new users, 1-28 Sep

23s avg engagement per active user, 1-28 Sep

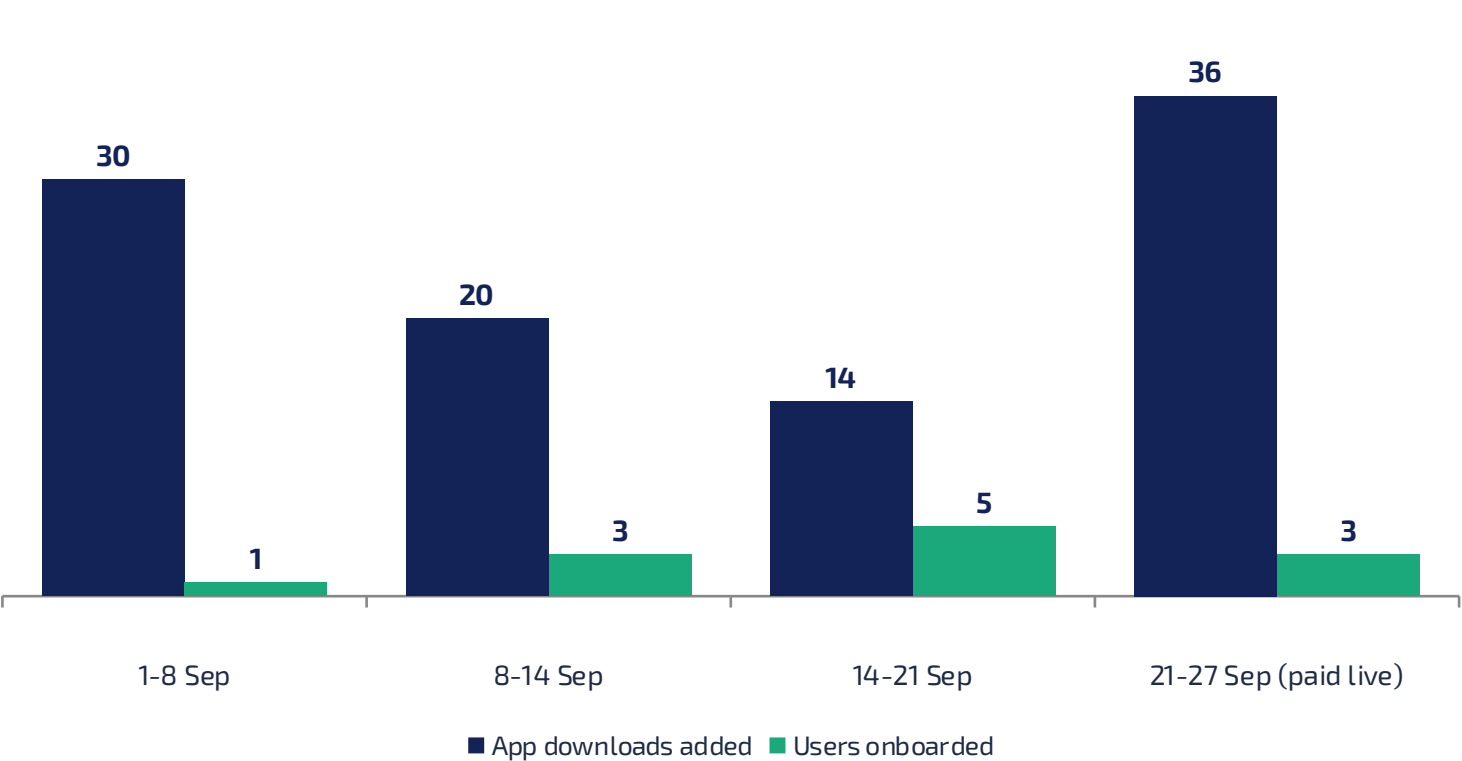

Takeaway Do not cut the Arabic ads on engagement alone. Define the key event and cost each campaign first.

Five decisions for today; three open data items must close before 20 October

2	Keep Arabic and English ads live until the key event is defined and costed		Marketing	10 Oct	Clients: Board 61 vs dashboard 54 on 17 Sep	Blocks 20 Oct
					No ad spend, LinkedIn leads or key-event definition	Blocks 20 Oct
3	Follow up every new download that has not completed KYC		Client Experience	10 Oct	No September exports for social channels	Open
					793% and LinkedIn +118% / +155% not exported	Open
4	Monthly data pack: GA4, social, Google and LinkedIn Ads, deposits		Marketing and Malek	8 Oct	LinkedIn followers: 531 vs 586	Open
