

# eMYAA Monthly Performance Report

June 2026 | Post Launch Findings: May Performance

# Chairman's Comments & Direction

# Content Strategy (Chairman's Directions)

01

## Dynamic First. No Static.

- Every asset must open with motion. High-net-worth audiences disengage within 3 seconds. Kinetic typography, UI fly-throughs, and micro-animations are non-negotiable from frame one.

02

## GCC Regional Language

- All copy targets investors across دول مجلس التعاون الخليجي. Broad regional phrasing only. Zero political references. Zero localised dialects.

03

## Four Content Pillars

- What is eMYAA.
- Platform Benefits.
- Why Should GCC Investors Choose eMYAA.
- Institutional Trust and CBB licensing.

## Key Highlights This Month

### ▼ Platform launch (14–31 May):

- Executed our pilot marketing testing phase. With the sponsor ads campaigns officially ending today, June 1<sup>st</sup> 2026, our immediate next steps is to evaluate the initial performance data to strategically guide our upcoming marketing roadmap.
- eMYAA recorded its first live user activity with 2 funded accounts depositing a combined USD 67.14, confirming end-to-end payment rails are operational through bank transfer.

### ▼ App store traction: 72 Android downloads and 54 iOS downloads achieved within the first 2 weeks of availability, both rated a perfect 5.0 stars with no negative reviews.

### ▼ Zero compliance breaches: automated KYC controls successfully identified and rejected 5 ineligible applicants (age restrictions, expired documents), demonstrating robust regulatory adherence from day one.

# Recommendations & Actions

01

## Client Communications

- Export emails of pending users and assign to Client Solutions Team for immediate follow-up.
- Deploy a customised HTML based re-engagement email with app download links (Android & iOS), social media handles and website.
- Track email click-through rates to measure conversion, report results in June.
- For users with available phone numbers, the Client Solutions team can conduct a verbal survey in order to understand any barriers preventing them to continue onboarding.

02

## System Enhancements

- Investigate a persistent KYC journey, users resume from their last completed step, not the beginning.
- Timeline & cost will be considered once received from Exante.

03

## Client Targetting

- Analyze the results of the marketing pilot phase, and prepare for a bigger targeted campaign through optimized channels and updated marketing content.
- Incorporate timely reminders with the cooperation of Client Solutions to encourage clients to trade.

04

## Client Education

- Use social media channels to educate users on required documents and reduce onboarding friction.
- Include document requirements in the re-engagement email.
