DECISION

20 Oct

go or hold on paid media

Judge against Board CAC targets: Starter \$167, Emerging \$417, Affluent \$882. Onboarding added only +3.

Takeaway Early paid-media signals are positive at the top of the funnel. Treat 20 October as the go or hold point, judged on accounts opened.

One campaign is live, two paid channels are in testing, and four videos are posted or in production

Initiative	Objective	Status	Date	Evidence	Next step
Mention & Win	Account openings (\$500 monthly prize)	● Live	Round 23 Sep to 20 Oct	Instagram: 186K and 26.3K views; \$3,200 budgeted Sep-Dec	Report entries and accounts after 20 Oct
Google Ads	Starter and Emerging investors, Saudi	● Testing	From 22 Sep	GA4: 409 sessions, 400 key events (1-28 Sep)	Add spend and cost per key event
LinkedIn Ads	Affluent lead generation, Saudi	● Testing	From 22 Sep	No campaign report yet	Pull leads and spend from Campaign Manager
Ali Sabeel video	Presenter-led awareness	● Posted	Posted 2 Sep	Instagram: 1.3M views; \$2,200 sponsor ad	Confirm close-out with Ignite
How-to video, human presenter	Onboarding education	● Posted	September	Instagram: 332 views	Track clicks to account opening
Abdullah Al Harbi	Creator video, Sep slot	● Posted	September	Per team; no view count supplied	Add views to next update
Manal Talal	Creator video, Oct slot	● In production	Calendar: 22 Oct	Per team: brief sent, filming started	Approve final cut before posting

Takeaway Nothing is labelled complete until close-out is confirmed. LinkedIn Ads has no reported results yet.

Five dated milestones run from 18 September to 22 October; the paid-media plan runs to December

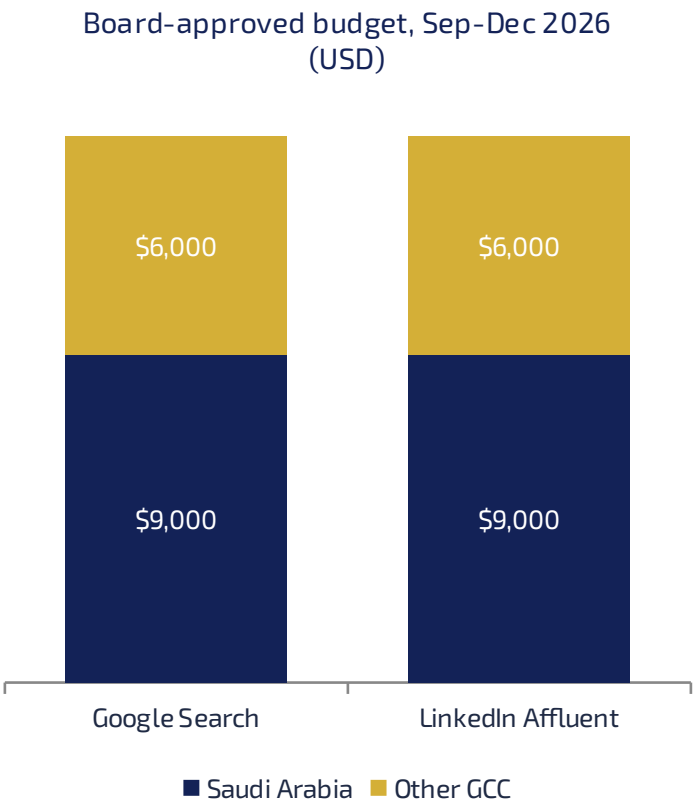

Takeaway 20 October is the natural review point: the Mention & Win round closes and paid testing will have four weeks of data.

Google Ads and LinkedIn Ads are in testing against Board CAC targets; only Google has results so far

	Google Ads	LinkedIn Ads
Audience	Starter (under \$1K) and Emerging (\$1K-5K)	Affluent (\$5K-50K)
Objective	Website conversions	Leads, then in-person meeting
Markets	Saudi Arabia first; Qatar, UAE, Kuwait, Bahrain, Oman in plan	
Phase	Testing since 22 September; scale phase follows (Board runway)	
Target CAC	\$167 Starter \$417 Emerging	\$882 Affluent
Evidence	409 sessions, 400 key events (GA4, 1-28 Sep)	None yet; lead forms stay on LinkedIn
Next read-out	20 Oct: spend, cost per key event, accounts	20 Oct: leads, cost per lead, meetings

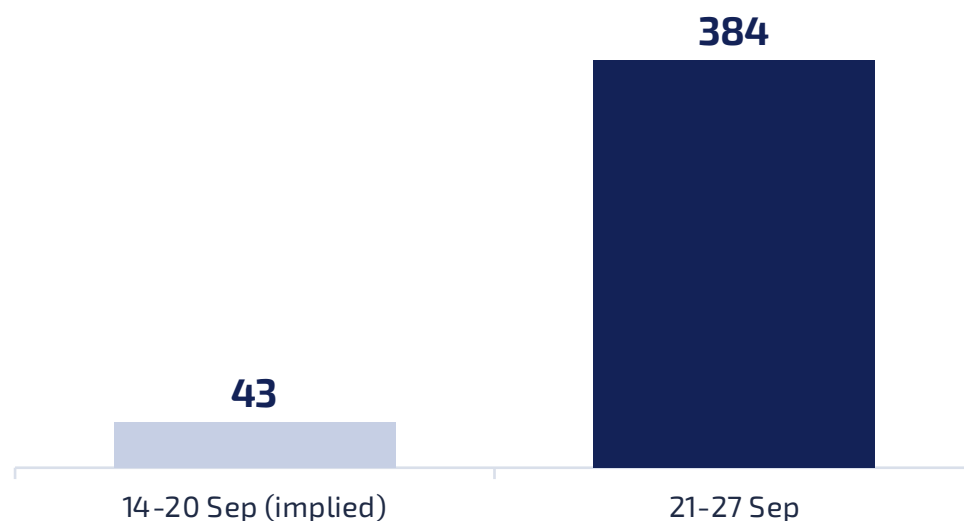

Takeaway The plan and targets are set. What is missing is spend and conversion data, which Ignite must supply before 20 October.

Active users reached 384 in the week of 21-27 September, a reported 793% rise as paid testing began

Active users per week, all sources, all countries

+793% Reported increase; calculation pending verification

Prior week of about 43 users is implied by GA's % change; it is not in the export.

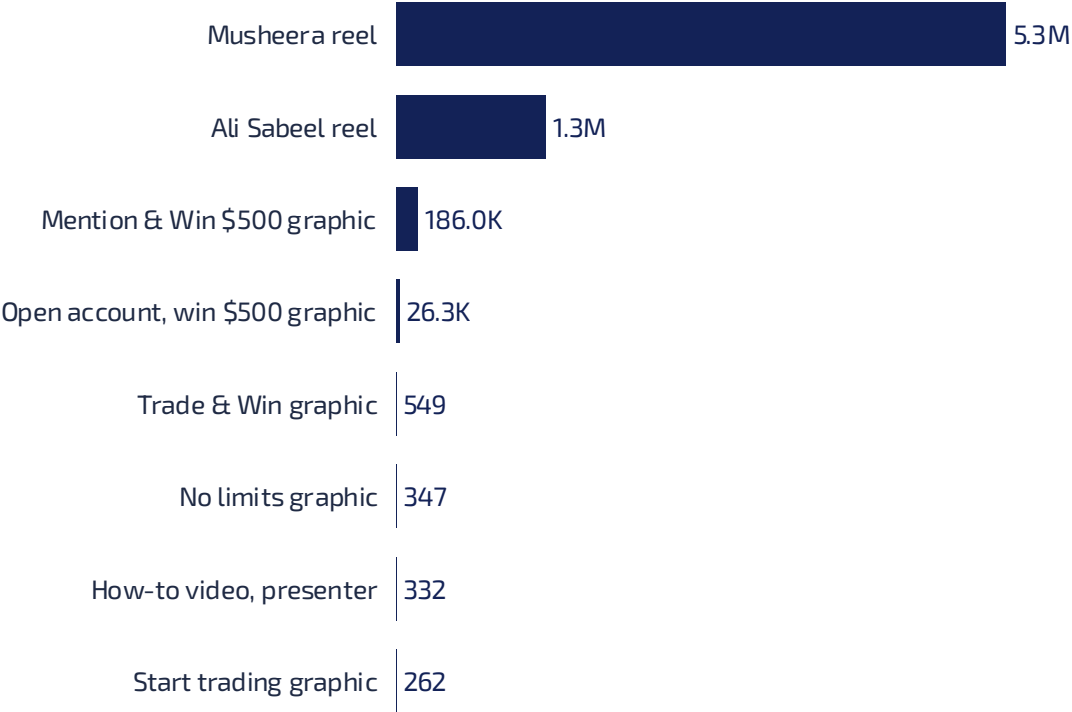

GA4 home card as captured. The line plots event count, not users.

Takeaway The rise lines up with the paid launch, and paid search is the first source for 74% of September users. The 793% stays 'reported' for now.

Instagram reach sits in three posts; other channels have screenshots but no September exports

Instagram views per post (as shown on profile grid)

Channel	Latest figure	Period	Status
Website	587 sessions; 11 from Instagram	1-28 Sep	Verified
Instagram	2,116 followers	Late Sep	Reported
LinkedIn	531 followers; 247 new vs 4 prior (+6,075% new)	30 days	Conflicting
LinkedIn	559 impressions, +118%	13-27 Sep vs prior	Reported
X	738 followers, 99 posts; 96.4% Bahrain	Late Sep	Reported
TikTok	15 followers, 176 likes	Late Sep	Reported

LinkedIn total also appears as 586 in an earlier count; export ends 28 Aug.

Takeaway Two presenter-led reels and one campaign graphic carry the views. Other posts are under 600, so reach depends on a few assets.

Mention & Win is a monthly \$500 contest; the \$5,000 Prize Campaign is a separate, larger campaign

Mention & Win ● Live, monthly

186K views

26.3K views

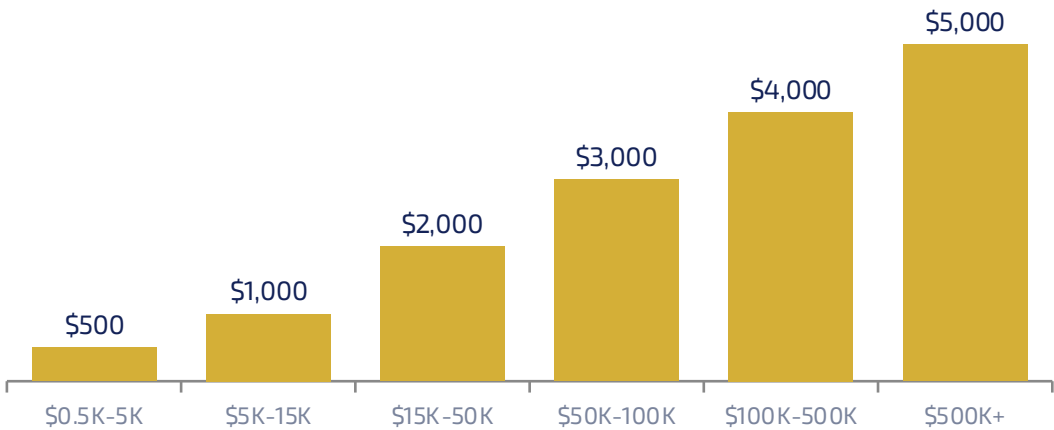

Launch reel: 1,129 likes (reported)

Round	23 Sep to 20 Oct (per team)
Mechanic	Follow, mention, open an account
Markets	All six GCC countries
Budget	\$3,200 prizes and ads, Sep-Dec
Results	Entries and accounts due after 20 Oct

\$5,000 Prize Campaign ● Pages live; T&C sign-off not on file

Dates	1 Aug to 31 Dec 2026; draw 10 Jan 2027
Mechanic	1 entry per \$500 traded; one winner
Eligibility	Fully verified, active eMYAA account

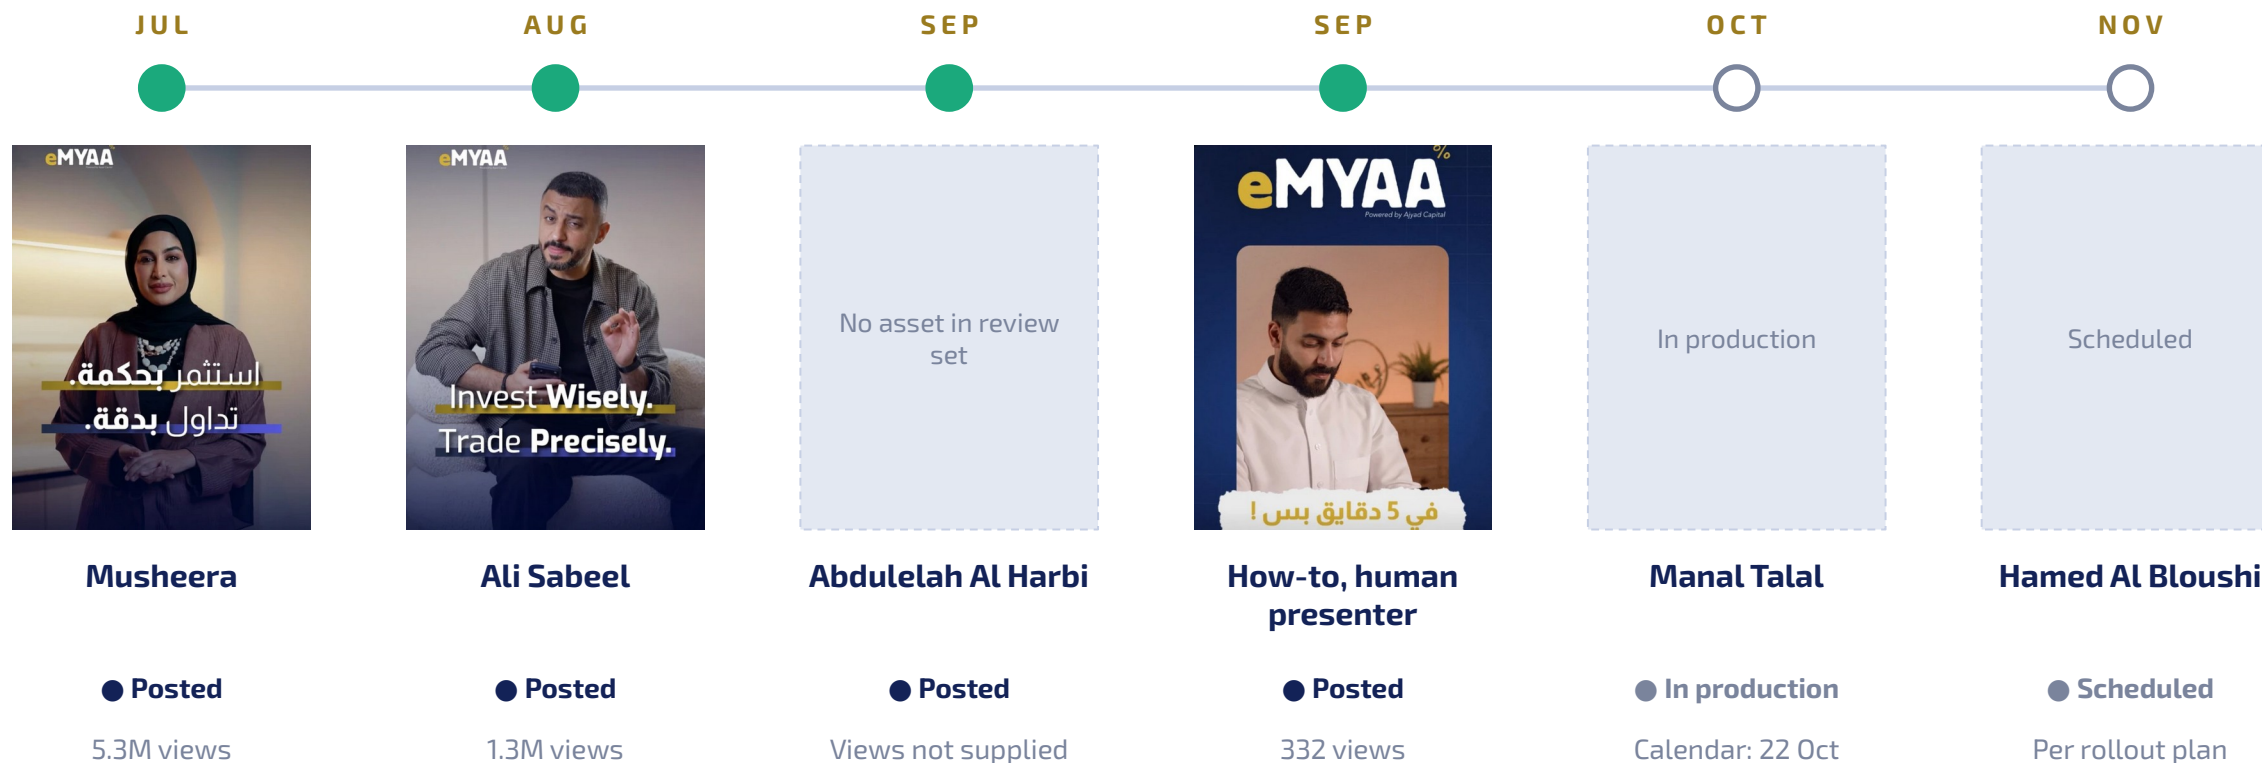

Prize if you win, by trading volume Aug-Dec 2026 (USD)

Takeaway Report the two separately. Mention & Win needs sign-up results per round; the \$5,000 campaign still needs its T&C sign-off on file.

The one-creator-a-month plan is on track: three presenter videos posted, Manal Talal set for 22 October

Takeaway The pipeline is on plan through November. The gap is measurement: Abdulelah Al Harbi has no view count yet.

Google Ads brought 70% of September site sessions; English ads engage more, Arabic ads log more key events

587 sessions, 1-28 Sep

542 active users, 1-28 Sep

558 new users, 1-28 Sep

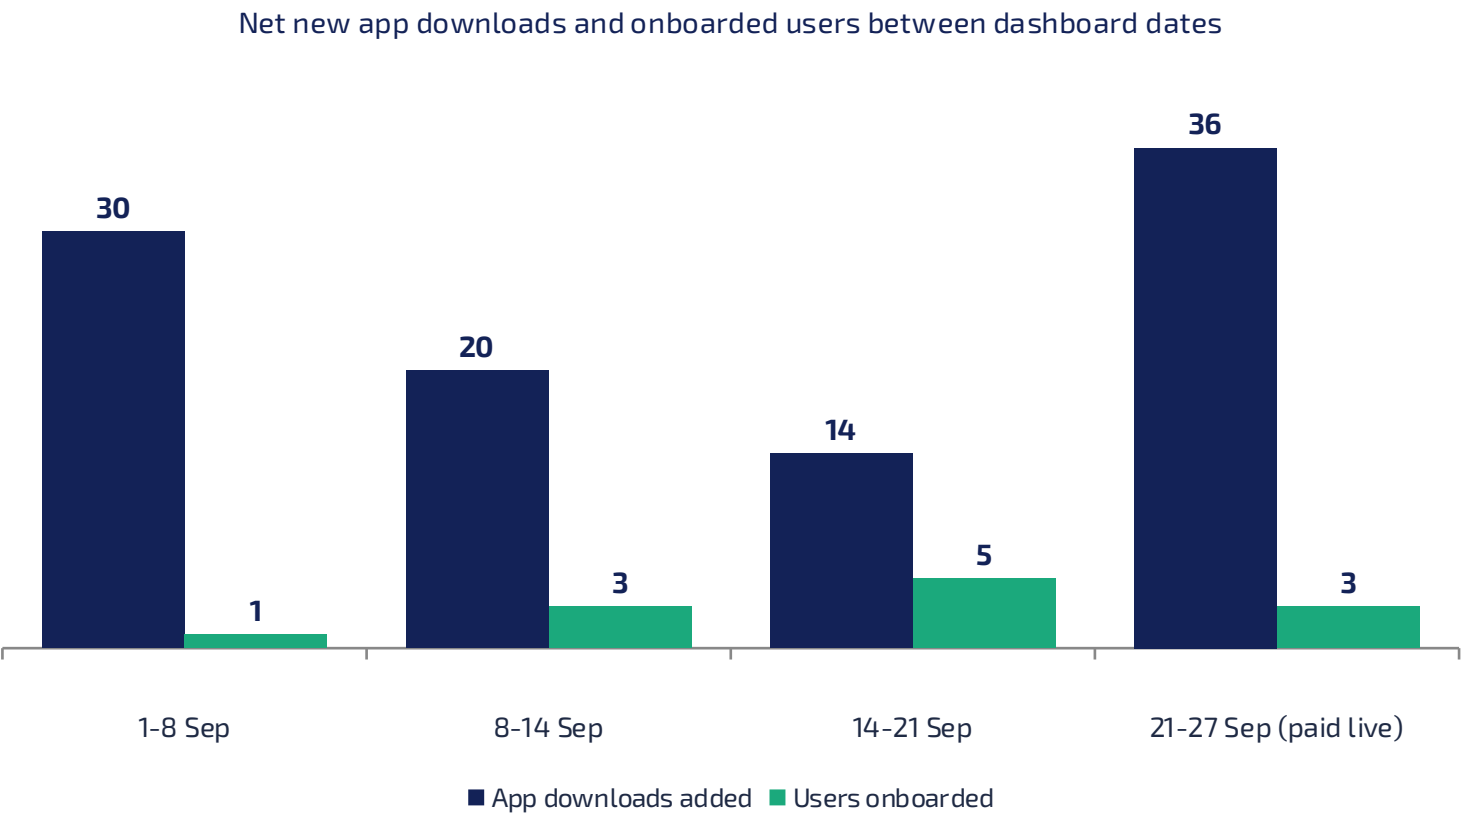

23s avg engagement per active user, 1-28 Sep

Takeaway Do not cut the Arabic campaign on engagement alone. First confirm what the key event measures and what each campaign costs.

Source: GA4 Reports snapshot and Google Ads campaigns exports, 1-28 Sep 2026. Referral includes 7 Tag Assistant test sessions; 21 paid sessions sit outside both campaigns.

Downloads picked up after the paid launch, but onboarding did not: +36 downloads, +3 accounts in six days

60

users onboarded

all time, 27 Sep

15

Takeaway Paid media is filling the top of the funnel. KYC and onboarding completion is the constraint to fix before spend is scaled.

Seven open items limit what we can claim; three of them block the 20 October paid-media decision

#	Issue	Impact	Owner	Required by	Status
1	Deposits: \$12,206 (Board, verbal) vs \$10,029.69 on dashboard, relabelled 'AUM' from 20 Sep	Deposit story rests on an unsourced figure	Malek	8 Oct	● Open
2	No September exports for Instagram, LinkedIn, X, TikTok (LinkedIn export ends 28 Aug)	Social results are screenshot-only	Marketing	8 Oct	● Open
3	793% and LinkedIn +118% / +155% not traceable to an export	Risk of overstating results	Marketing	8 Oct	● Pending evidence
4	No spend, cost per key event or LinkedIn leads; key event undefined	Cannot test Board CAC targets	Marketing with Ignite	15 Oct	● Open
5	Clients: Board 61 'as at 17 Sep' vs dashboard 54 (17 Sep) and 60 (27 Sep)	Board figure may run ahead of source	Malek	8 Oct	● Open
6	LinkedIn followers: 531 now, 586 in an earlier count	Growth claim unreliable	Marketing with Ignite	8 Oct	● Open
7	\$5,000 campaign T&Cs sent for approval 20 Jul, no sign-off on file; Market Pulse feature in discussion	Regulatory and content dependency	Compliance, IT	15 Oct	● Pending evidence

Takeaway Owners and dates are proposed. Items 1, 4 and 5 must close before the paid-media decision.

Source: Audit of the previous drafts against GA4 exports, daily dashboards, LinkedIn export, Board update and campaign files. See Percentage-Audit.csv and Source-Traceability.csv.

Five decisions for today, each with an owner, a date and a measurable outcome

	Decision required	Owner	By	Expected outcome
1	Set 20 Oct as the go or hold point for paid media, judged on cost per account against Board CAC targets	Marketing with Ignite	20 Oct	Remaining budget goes to what converts
2	Keep both Arabic and English ads live until the key event is defined and costed	Marketing	10 Oct	No cut to the version with more key events
3	Fix onboarding drop-off: follow up every new download that has not completed KYC	Client Experience	10 Oct	More of the new downloads become accounts
4	Require a monthly data pack: GA4, social, Google Ads, LinkedIn Ads, deposits	Marketing and Malek	First pack 8 Oct	Every figure in the next update is sourced
5	Confirm sign-off of the \$5,000 campaign T&Cs and require a Mention & Win close-out	Compliance and Marketing	27 Oct	Both campaigns on record and measured

Takeaway With these in place, the next update can report cost per account opened against the Board targets, not just traffic.
